"Don't Shoot!"

The "cop" thought it was a gun. Fine joke to scare him. But it isn't so much of a joke when you get out and see a big hole in what you thought was a perfectly good tire. What caused it? A hidden weakness in the fabric. Wouldn't have had this weakness had it been a Goodyear No-Kim-Cut Tire.

For the costly "On-Air" process of curing, used by the Goodyear People, irons out all wrinkles in the fabric layers.

This is one of the advantages of Goodyear. Drop in and we will tell you a half-dozen more. It is no accident that the Goodyear No-Kim-Cut has become the favorite. There are good reasons.

You may be interested, too, to learn that we carry a complete stock of Goodyear Tires. That saves your waiting. Insures our customers instantaneous service. If you like prompt service and extra-mileage tires, you'll find this the ideal place to do business.
